Tiger Den Update

by: Lance Millar

The Tigers definitely had a great month of meetings with our Power Up! theme. We learned how to check our heart beats and all sorts of different ways to increase our heart beats. Lots of fun came out of the playing card physical training we did which culminated in Jayden Bornia became the first ever “Dying Cockroach” contest winner. Check out the event on www.youtube.com/watch?v=ESdXZlhJHb0
The Tiger cubs also added a new member to our den. His name is Matt and he is having a roaring good time! Next month our Tiger Cub theme will be Go See It! with trips planned to a fire station and perhaps even another fun hike, the Tiger cubs are ready to roll into another roaring good month. See you at the Pack Meeting!

Webelos II Update

by: Dave Despain

The Webelos II's have had a very challenging year. In just a few short months these two boys have buckled down and earned the highest award given to Cub Scouts. They will be awarded the Arrow of Light. This award is not one that comes easily; it requires extra work from both the scout and the parents. It requires extra effort and time for both, these two boys have amazed me with the effort and diligence that it takes to receive this prestigious award. I am very proud to be able to present this to them this evening, and hope that all of the other scouts and leaders can take a moment tonight and congratulate them for achieving this award.

Webelos I Update

by: Jeff & Gretchen Tofflemire

Den 5 worked on their Scholar Badge in January. We took a field trip to the Public Library, listened to a special presentation from the librarian just for our Den, got library cards, and checked out books. We had lots of fun learning and playing chess. Also, we worked on the Mathematics belt loop as part of the Scholar Badge, by making chocolate chip cookies and having a Metric Scavenger Hunt.
